INTERNSHIP

Full Stack Developer at OctaNet Services pvt ltd.🔗

07 2024 – 08 2024

Full Stack Developer

- About the role :- Served as a Full Stack Developer at Octanet Services Private Limited, working extensively on MERN stack projects. I was responsible for building projects from scratch, developing new features, and managing large-scale applications. This internship significantly enhanced my skills in web development, problem-solving, and end-to-end project management.

ACHIEVEMENT

Hackathon Winner - MERN Stack Project🔗

07 2024 – 08 2024

APRIL 2025

1pt

- * DESCRIPTION :- Developed a full-stack web application using the MERN stack (MongoDB, Express, React, Node.js) for a recent hackathon. The project featured a responsive and unique user interface, with a focus on clean design and seamless user experience. Achievements: Awarded Winner of the hackathon for innovative solution, clean code, and overall user experience.

POSITION OF RESPONSIBILITY

Hackathon Team Leader – XpertSwap🔗

APRIL 2025

2pt

- Hackathon Team Leader – XpertSwap Led a team to build a complete platform from scratch during the hackathon. Managed the team, coordinated tasks, and ensured timely project completion.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML & CSS

Libraries/Frameworks: Node JS, Express JS, React JS, Tailwind, Mongoose, Redux Toolkit

Developer Tools: VS Code, Git & Github, Postman

Other: Web Developent, Github, DBMS

PROJECTS

XpertSwap (Skill Exchange Platform) 🔗 |

2pt

About project:- Built XpertSwap.com, a skill exchange platform empowering students to teach and learn skills collaboratively. Developed from scratch using MERN Stack and Tailwind CSS, with features like 1-on-1 video calling, real-time chat, skill search, and profile management. Initiated as a startup project to support peer-to-peer learning and skill development among students globally. .

Course Selling Web App 🔗 | Technology Stack Used1 2025 - 29 2025

3pt

About project:- Developed a Course Selling Web Application using the MERN stack (MongoDB, Express.js, React.js, Node.js). Implemented robust Authentication and Authorization features to ensure secure user access. Designed and managed backend operations with Node.js, Express.js, and MongoDB, while building a dynamic and responsive frontend with React.js..
